

SwimClear™ Mono-élément

C200SE

C150SE

C100SE

Compact design for clear water

- **Very fine filtration** (20 to 25 microns)
- **Ease of maintenance:** just one filtration element to clean
- **Ease of installation**
- **NSF** (National Sanitation Foundation) **Certified**
- **Excellent hydraulics** that reduce installation head losses
- **Compact design** with minimum ground coverage
- **No backwashing:** saves on water, heating and chemicals (ideal with a salt chlorinator as there is no loss of salt)
- **Can be installed outdoors** thanks to its weather-resistant tank

YEARS OF WARRANTY

10 **5** **TOTALLY PARTNER**
ON THE TANK EQUIPEMENTS +1

Easy-to-remove filter cartridge

- ➊ Recessed pressure gauge. Place the head assembly upside down on pool pad.
- ➋ Ergonomic grip handles: provide multiple handling locations.
- ➌ Easy-lok™ ring design. Quick access to internal components.
- ➍ Lowest body height to lift elements.
- ➎ Complete built-in drain offering full and fast cleaning for simplified filter draining.
