PoolVac V-Flex™ Navigator® V-Flex™

THE NEW GENERATION OF SUCTION CLEANERS

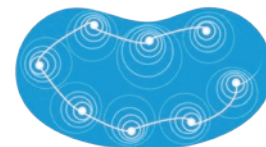

25% EXTRA SUCTION!

That's the whole advantage of the new patented V-Flex™ technology: a moving vane turbine that gives you more power to clean your pool thoroughly and capture larger debris. Its moving vanes also reduce the risks of obstruction.

COMPLETE CLEANING

Their exclusive steering system allows them to move quickly and methodically to clean the pool efficiently in an average time of between two and three hours.

SIMPLE

Can be directly connected to the vacuum fitting or skimmer. They operate with the filter pump without the use of tools or an electrical connection.

DID YOU KNOW?

V-Flex™ kit available for old PoolVac and Navigator® models.

Upgrade your PoolVac or Navigator® cleaner with the patented V-Flex™ moving vane turbine technology to capture large debris.

Suction cleaners

VERSATILE

Compatible with all types of floor and coating: concrete, liner, tiling, fibreglass, etc. and with most pools up to 12 by 6 metres.

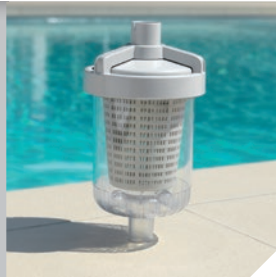

RELIABLE

Tried and tested for more than 30 years, Hayward's turbine cleaners are renowned for their reliability (guaranteed 5 years).

LEAF TRAP

supplied with the PoolVac V-Flex™, but as an optional extra for the Navigator® V-Flex™.
